HILO BAND  
WANTS HELP

Effort Will be Made to  
Get Territorial  
Appropriation.

HILO, April 28.—The largest petition which has been sent to the House of Representatives for the present session has been from the voters and taxpayers of Hilo recommending government support for the Hilo band.

The representatives from East Hawaii are making every effort in their power to have inserted in the appropriation bill an item which shall give the much desired government aid to the Hilo band. Representative Smith has already introduced a resolution in the House of Representatives providing for an appropriation of \$5000 for this purpose.

Lieut. Col. McClellan, who recently made a visit to Hilo to inspect the National Guard stationed here, has written the following communication recommending the band:

Headquarters Artillery, District of Honolulu, Camp McKinley, H. T., April 17, 1905.

The Honorable Carl Smith, Alexander Young Hotel, Honolulu:  
Sir: In reply to your inquiry, I have the honor to inform you, that while inspecting the National Guard Company at Hilo, Hawaii, recently, I had occasion to observe the Military Band of 22 pieces, which turned out with the company at its armory, and played during the inspection.

The band seemed to be a good one, and I was informed that this band desired to join the National Guard.

As a band is quite an important feature of the organization of a regiment of militia, and is very useful in assisting in keeping up the military spirit of any organization, or of any community, I would respectfully recommend that this band be encouraged in some practical way.

Could it not be considered as part of the Territorial band, and, stationed at Hilo, perform for that city, what the Territorial band does so well for Honolulu, and at the same time be called upon from time to time to do its duty with the National Guard, as the present Territorial band does.

Very respectfully,  
(Signed) JOHN MCLELLAN,  
Lieut. Col., Artillery Corps, Commanding.

It is understood that Geo. W. Smith, President of the Merchants' Association at Honolulu, is giving his personal support and has also written strongly in favor of the item.

## ORPHANS GIVEN A RIDE.

Miss Clara Gillaspie, with a party of five children from the Kona Orphanage, arrived in Hilo on Sunday on a tour of the island. The party were taken in charge by E. E. Richards, who on Sunday and Monday showed them the sights in and about Hilo. The children had never ridden before on a railroad until the ride from Glenwood as the guests of the Hilo railroad, and Mr. W. S. Terry gave them a ride on an automobile, an experience which they thoroughly enjoyed. The round the island excursion had been entirely complimentary, and the Orphanage largely indebted to L. S. Augst of Honolulu for the trip.

Mr. Augst provided a surrey and team for the party and under Miss Gillaspie's supervision they left Kailua on last Tuesday. They were the guests of the Volcano House and nowhere has the trip cost the five little boys and girls or their conductress a penny. They leave this morning for Honokaa, thence to Waimea, returning to their home on Saturday, after a two weeks' outing.

## HIS HORSE FELL.

While, a young son of John Napier of Waialae, met with an accident on

Poor little fellow! He coughs so hard he cannot sleep. That makes him weak and sickly all the next day. His brother thinks this coughing is terrible. So do we, for we know that just a few doses of

Ayer's  
Cherry Pectoral

will cure this cough. For 60 years it has been the standard cough remedy for children. Look out for cheap imitations. Get the genuine.

Saturday that may cripple him for life. He was riding to his home in Waialae on Saturday and took the plantation railway track as the nearest route. His horse stumbled and threw him, falling on top of the boy and fracturing his arm at the shoulder joint. Dr. Holland was called to attend him and after an examination of the injury another physician was called in consultation. The boy is resting easy, but it is probable that the joint at the shoulder will always remain stiff, so that the arm will be of little use to him.

## HILO NOTES.

Alfred de Mattos, a Portuguese resident with a penchant for litigation, stopped Manager Campbell on the road from Pihouua the other day and threatened his life. Mr. Campbell complained to the sheriff's office and the man was put under bonds to keep the peace.

Miss Florence Scott has been appointed assistant teacher in the Hilo Kindergarten, vice Miss Mealoa Uli, resigned.

Mrs. R. T. Moses and child, after several months' visit to Oakland, Cal., returned on the Enterprise Thursday morning.

Word has been received from Professor Henshaw that he has been appointed to a position on the Biological Survey under the direction of the Agricultural Department at Washington.

Mrs. C. A. Stobie is recovering from the effects of a sprained ankle sustained while on her way to church the other night.

The schooner Marsten will probably get away for the coast on Saturday. L. K. Pearson and family will be passengers on her.

Charlie Hitchcock is now the Cupid of the Fourth Circuit Court and is empowered to issue marriage licenses while you wait. Next!

After a lingering illness, J. H. Thomas, well known in Olua and vicinity, died at Hilo last Wednesday morning of heart disease. Mr. Thomas was a Welshman, and had long been a resident in the Islands, serving as a luna on a number of plantations. He had been afflicted with heart trouble for about a year and was past fifty years of age when he died, leaving a family of a wife and five children practically destitute. The oldest daughter is fourteen and employed as a nurse maid in a Hilo household. The deceased had been a Mason and a member of the Knights of Pythias.

Small Farmer Porter of Olua is shipping a high-grade of celery to the Central Market, Hilo.

Hon. C. M. LeBlond is convalescing after an illness that has confined him to his room for two weeks.

The American-Hawaiian steamship American arrived yesterday to finish her sugar cargo for New York.

J. E. Ralph of Pittsburg, Pa., a graduate from Geneva College, Pa., came on the S. S. Enterprise to enter the employ of Wall, Nichols Co. Mr. Ralph is a capable frame-maker and has received instructions in stringing tennis rackets from an expert.

A bus load of Scotch Highlanders narrowly averted a serious accident Saturday evening near Wainuku. A party of eighteen were going to Papakou to attend the wedding reception of Mr. and Mrs. Butchart, when the double team of horses became frightened at the sonorous notes of a bagpipe and bolted.

The driver held the team with difficulty, but in the mix-up the harness and vehicle were badly damaged, and it was necessary to send to Hilo for additional conveyances. None of the occupants of the bus were injured. Fred Carter at Waimea reported heavy winds in his vicinity on Tuesday and stated that some very heavy koa trees had been blown over. Julian Monsarrat telephoned from Kapapala that the wind was blowing a gale there. In the latter case this is unusual.

## ALL SORTS.

Blood oranges are sometimes artificially produced by injecting a few drops of claret through a small aperture in the rind.

The lock step has been abolished at Sing Sing prison, and now the prisoners are marched about in their companies in double file.

A Japanese Christian minister, writing of the divorces in Japan during a recent year, says there were 358,389 marriages and 116,775 divorces.

The Danish West Indies have issued a new stamp, of a new design, and differing only slightly from the regular issue of Denmark. The color is green.

A large department store in New York has what is termed an "Automobile annex," where vehicles are shown, and an Otto gas engine belted to a dynamo serves to charge vehicles which may be brought to the annex for that purpose.

The winter and early spring are usually considered the best months to visit Sicily, but a German author declares that Taormina and Aetna are really at their best in May, June and July.

A plague of toads has descended on several places in the vicinity of New York, but Hawthorne and Paterson, N. J., are the most afflicted, or say the most about it. A lawyer who wheels between his home and office in the two places respectively says that he kills thousands of them every morning. The council is considering what best can be done to mitigate the evil.

A collection of postal cards is easier to make than one of stamps, for several reasons. One is that postal cards date back 30 years, while stamps were issued as early as 1840. Another reason is that there is generally but one kind of postal card in each issue, whereas there is hardly ever less than ten stamps in a series. Then again, there have been very few changes in postal cards as compared with stamps.

The idea that moss grows thickest on the north or east side of trees seems to have been disproved. A French botanist, Leon Bedel, now concludes that mosses prefer the parts of the tree that retain most moisture, being thus more abundant on rough or cracked parts, on the upper part of a branch or inclined trunk, on knots or bosses, at the fork of branches and at the base of the trunk.

## A PIRATE POTENTATE.

From a Secluded Welsh Farm to the Command of a Buccaneer Fleet of Twelve Ships.

Mr. Frank R. Stockton, in his "Buccaneers of Our Coast," in St. Nicholas, says:

Sometime in the first half of the seventeenth century, on a secluded Welsh farm was born a little boy. His father was a farmer, and his mother churned and tended the cows and the chickens, and there was no reason to imagine that this baby, born and reared in rural solitude, would become a rover of the seas and one of the most formidable pirates that the world ever knew. Yet such proved to be the case.

The baby's name was Henry Morgan, and as he grew a distaste for farming grew with him. So strong was his dislike that when he became a young man he ran away to be a sailor. He found a ship bound for the West Indies, and in this he started on his life's career. He had no money to pay his passage, and he therefore followed a usual custom of those days and sold himself for a term of three years to an agent who was taking a number of men to work on the plantations. These men when enlisted were termed servants, and when they had been set ashore in the new world they were generally called slaves, and certainly treated as such.

When young Morgan reached the Barbadoes he was sold to a planter, and during his term of office he probably worked a good deal harder, and was treated much more roughly, than any of the laborers on his father's farm. But as soon as he was a free man he went to Jamaica, and there were few places where a young man could be more free and independent than this lawless island.

Here were rollicking and blustering "filibusters," and here the young man determined to study piracy. He was not a sailor and a hunter who by the force of circumstances gradually became a buccaneer, but he deliberately selected his profession, and immediately set to work to acquire a knowledge of its practice. There was a buccaneer ship about to sail from Jamaica, and on this Morgan enlisted. He was a clever fellow, and very soon showed himself to be a brave and able sailor.

After three or four voyages he acquired a reputation for remarkable coolness, and showed unusual ability to take advantage of favorable circumstances. These traits became the foundation of his success. He was also a good business man, and having saved considerable money, he joined with other buccaneers, and bought a ship, of which he took command. The ship soon made itself a scourge in the Spanish seas; no other buccaneering vessel was so widely known and so greatly feared, but the English people in those regions were as proud of the dashing young Capt. Morgan as if he had been a regularly commissioned admiral, on a lawful cruise. Before long he was recognized as buccaneer in chief of the West Indies, and he very soon gathered together 12 ships and 700 men.

## How to Avoid Trouble.

A young cock saw a weathercock on top of the house, and, thinking him a rival, began crowing fiercely.

"If you keep on making a noise like that," said the old bird, "they'll wring your neck for you."

The young cock looked thoughtful.

"Take example by me. I've got along and have been looked up to for half a century by simply keeping my bill shut and turning with the wind."

The moral is obvious.—Philadelphia North American.

It is not  
Astonishing

The number of ladies, who inquired as to terms under which they can obtain

A Home  
in the Cooper  
Tract, Manoa!

They are the ones who live in the home. They are the ones who make the home. It is only reasonable they should want to own a home.

## REMEMBER!

## EASY—TERMS—EASY!

Come and see me—see the plans of a house, and learn how it is done. That \$30 a month you pay rent and get nothing in return. Turn it into a monthly payment. Each monthly payment is nearer your owning the home. WHAT DO YOU GET FOR IT NOW?

It is natural for a woman to beautify the surroundings she lives in. Now it goes to another. By my plan, every tree, plant or other improvement she makes is done willingly.

## BECAUSE IT IS FOR HER OWN HOME.

The money a man spends for luxuries each month added to the rent he pays will BUY HIM A HOME very quickly. Figure it out what you can do without. Play fair, put it on paper, add it up, then come to me.
